

ARTIFICIAL INTELLIGENCE and the Future of Work for WOMEN

Join us for this fascinating lecture where we will explore what lies ahead for women in the workplace in the dawn of A.I.

TUESDAY MARCH 26, 6:00PM

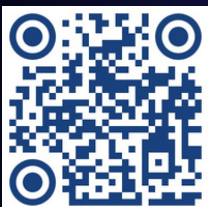

DALLAS COLLEGE - BROOKHAVEN CAMPUS
3939 VALLEY VIEW LANE
FARMERS BRANCH, TX 75244
ROOM B-240 (USE PARKING LOT P3)

THERESA KUSHNER
Partner, Business Data Leadership

Theresa Kushner is a self-styled Data-vangelist, passionate about AI and the data it uses. With her experience in leading data organizations in companies such as IBM, Cisco Systems, VMware, Dell/EMC and NTT DATA, she helps companies and individuals prepare for the AI technology wave. She is a speaker and writer who has co-authored two books on data and its use in business: *Managing Your Business Data* (with Maria Villar) and *B2B Data-Driven Marketing* (with Ruth Stevens). She is also a contributor to MarTech.org and to FYI50plus.com.
